About Jaegerndorfer USA

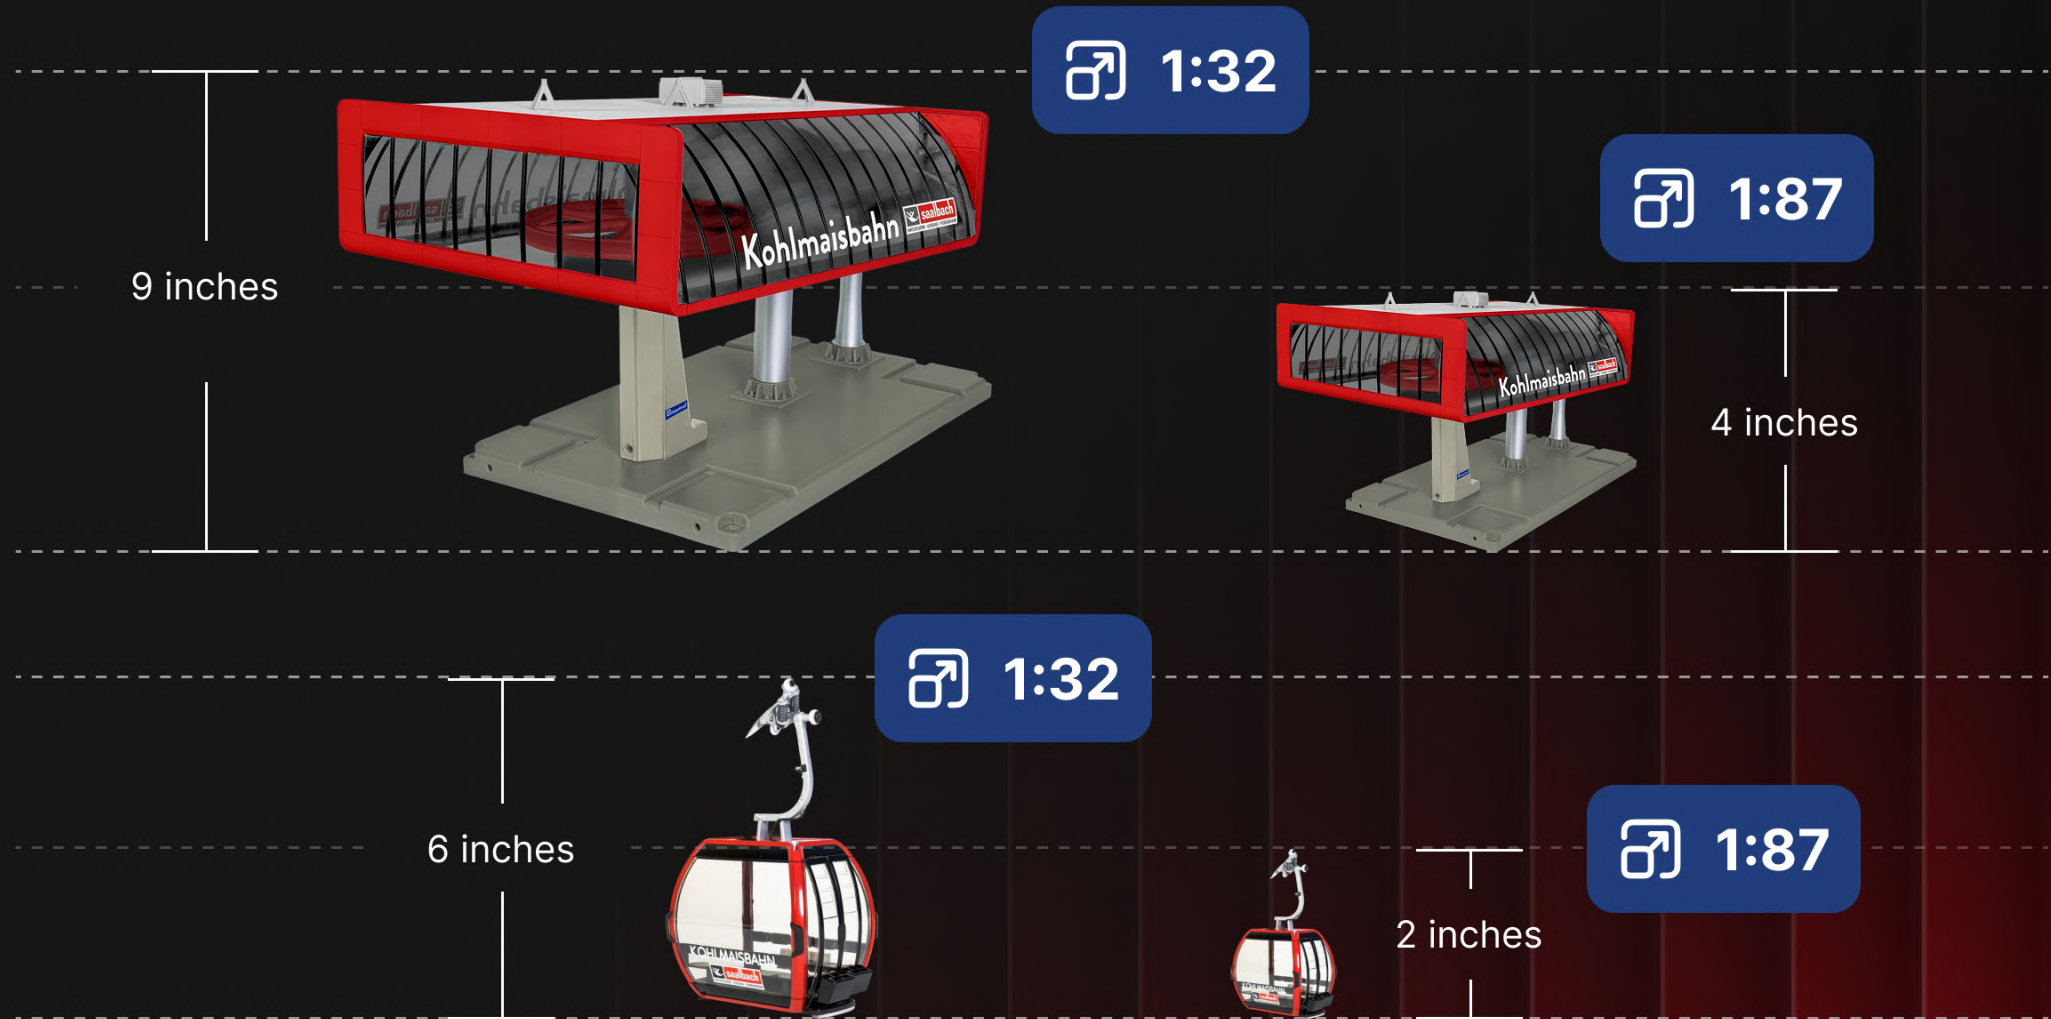

Jaegerndorfer USA is now part of Nevada Hobby Distributors, in the beautiful region of Reno, Nevada. All of our products are all engineered in Austria. We are dedicated to bringing the finest winter models of Aerial Tramways, Ski-Lifts, Gondola Systems, Pistenbullies, Figures, Dolls and Accessories to the North American Market.

Ski Resorts can make a lasting impression, increase brand awareness, broaden their marketing out-reach and best of all increase sales by customizing Jaegerndorfer products; Ski-lifts, Gondolas, Aerial Tramways, Keychains etc. with their own ski resort logos printed on them.

Ski enthusiasts can recreate memories from their winter vacation, enrich a train layout and operate an interesting display for home or office during the holiday season. These prototypical winter models are ideal for collecting memorabilia from your favorite ski resort and make ideal gifts for parties, weddings and corporate events.

G-Scale and HO Size Comparison

01

SKI LIFTS & TRAMWAYS

Ascend to something extraordinary. Jägerndorfer ski lifts and aerial tramways are precision-engineered in Austria to capture the pulse of the mountain in motion. Fully operational gondola systems, detachable chairlifts, and iconic pendulum tramways deliver unmatched realism at 1:32 and HO 1:87 scale.

Pistenbully

The mountain never sleeps. Neither do these. Precision die-cast PistenBully snow groomers bring the slopes to life at 1:32 and 1:43 scale, from the iconic 400 to the powerful 600 series. Detailed, rugged, and ready to groom your miniature resort.

JC 0400 | 1:32

PistenBully 400

When snow operations don't require a winch, such as in indoor ski halls or parks, the PistenBully 400 is the go-to choice. The 1:32 PistenBully 400 is of course also available in the Jägerndorfer Collection and features technical refinements, visual details, and high-quality materials.

Length 11.02 inches (28 cm)
Width 6.50 inches (16.5 cm)
Height 2.76 inches (7 cm)
(W), 3.54 inches (9 cm) (OW)

JC 0410 | 1:32

PistenBully 400 W

With technical refinements such as a 360-degree rotating cable winch, whose cable automatically retracts with a sound effect, the 1:32 PistenBully 400 W ranks among the top products in the JC model series.

Length 11.02 inches (28 cm)
Width 6.50 inches (16.5 cm)
Height 4.33 inches (11 cm)

JC 0430 | 1:32

PistenBully 400 Park Pro

The terrain park specialist. This 1:32 die-cast PistenBully 400 Park Pro brings the freestyle side of mountain ops to your collection, compact frame, aggressive stance, and the unmistakable profile of the machine that builds every kicker and halfpipe wall.

Length 11.02 inches (28 cm)
Width 6.50 inches (16.5 cm)
Height 3.54 inches (9 cm)

JC 4700 | 1:43

PistenBully 100 Die Cast

This 1:43 die-cast PistenBully 100 replicates the real machine's improved power train, SCR catalyzer, and streamlined design. German engineering, Austrian craftsmanship all in 8½ inches of detailed metal.

Length 7.87 inches (20 cm)
Width 3.54 inches (9 cm)
Height 2.36 inches (6 cm)

JC 4800 | 1:43

PistenBully 600

The workhorse of the world's top ski resorts, scaled down, not dialed back. This 1:43 die-cast PistenBully 600 delivers the iconic silhouette and rugged build quality that collectors and mountain enthusiasts demand. Compact. Authentic. Essential.

Length 8.27 inches (21 cm)
Width 5.12 inches (13 cm)
Height 2.76 inches (7 cm)

JC 4810 | 1:43

PistenBully 600 W

Built for the steepest terrain on the mountain. This prototypical 1:43 PistenBully 600 Polar SCR features a winch-equipped rear and the advanced SCR emission system that defines the next generation of snow groomers. Die-cast detail, summit-grade credibility

Length 8.27 inches (21 cm)
Width 5.12 inches (13 cm)
Height 3.15 inches (8 cm)

JC 4910 | 1:43

PistenBully 800 W

Same legendary 800 platform, now equipped with a working crane. This 1:43 die-cast model captures the full-service groomer that handles everything from slope prep to lift tower maintenance. Precision detail, serious shelf presence.

Length: 8.66 inches (22 cm)

Width: 5.91 inches (15 cm)

Height: 3.35 inches (8.5 cm)

PistenBully Miniature Models

Miniature PistenBully versions of the iconic snow groomer — available with or without winch. Compact, detailed, and perfect for collectors on the go.

Length: 4.33 inches (11 cm)
Width: 2.56 inches (6.5 cm)

Snow Mobiles & Snow Blower

Fast, fierce, and built for the backcountry. Jägerndorfer snow mobiles add speed and action to any winter scene. Finely detailed at 1:32 scale, these machines are the perfect complement to your groomed slopes and alpine landscapes.

JC 1119 | 5 Inches Length , 3 Inches Tall

DIE CAST SNOW MOBILE

This 1:32 scale snowmobile adds backcountry edge to any winter layout. Available in blue, yellow, or red (each sold separately) so you can build a whole patrol fleet or just let one rip across the powder.

Length: 9.5 inches (24 cm)

Width: 4.25 inches (11 cm)

Height: 7 inches (18 cm)

JC 2019 | 3 Inches Tall

JC-2019 Snowblower w/ undercarriage

The mountain's secret weapon. This finely detailed TF10 snowblower replica features the TechnoAlpin logo and a tracked undercarriage built for high-altitude snowmaking duty. A precision accessory that adds real resort operations credibility to any 1:32 layout.

Features

Height 7.5 cm
Length 8.5 cm
Width 6.8 cm

JC 2105 | 8 Inches Length , 3 Inches Tall

Die Cast Snow Mobile - Unimog Snow Plow Orange

When the storm hits, the Unimog rolls out. This orange snow-clearing vehicle comes equipped with a front plow blade and measures a commanding 18.5cm long. The workhorse that keeps every Alpine access road open, now ready for your winter diorama.

08

HO Sets & Accessories 1:87

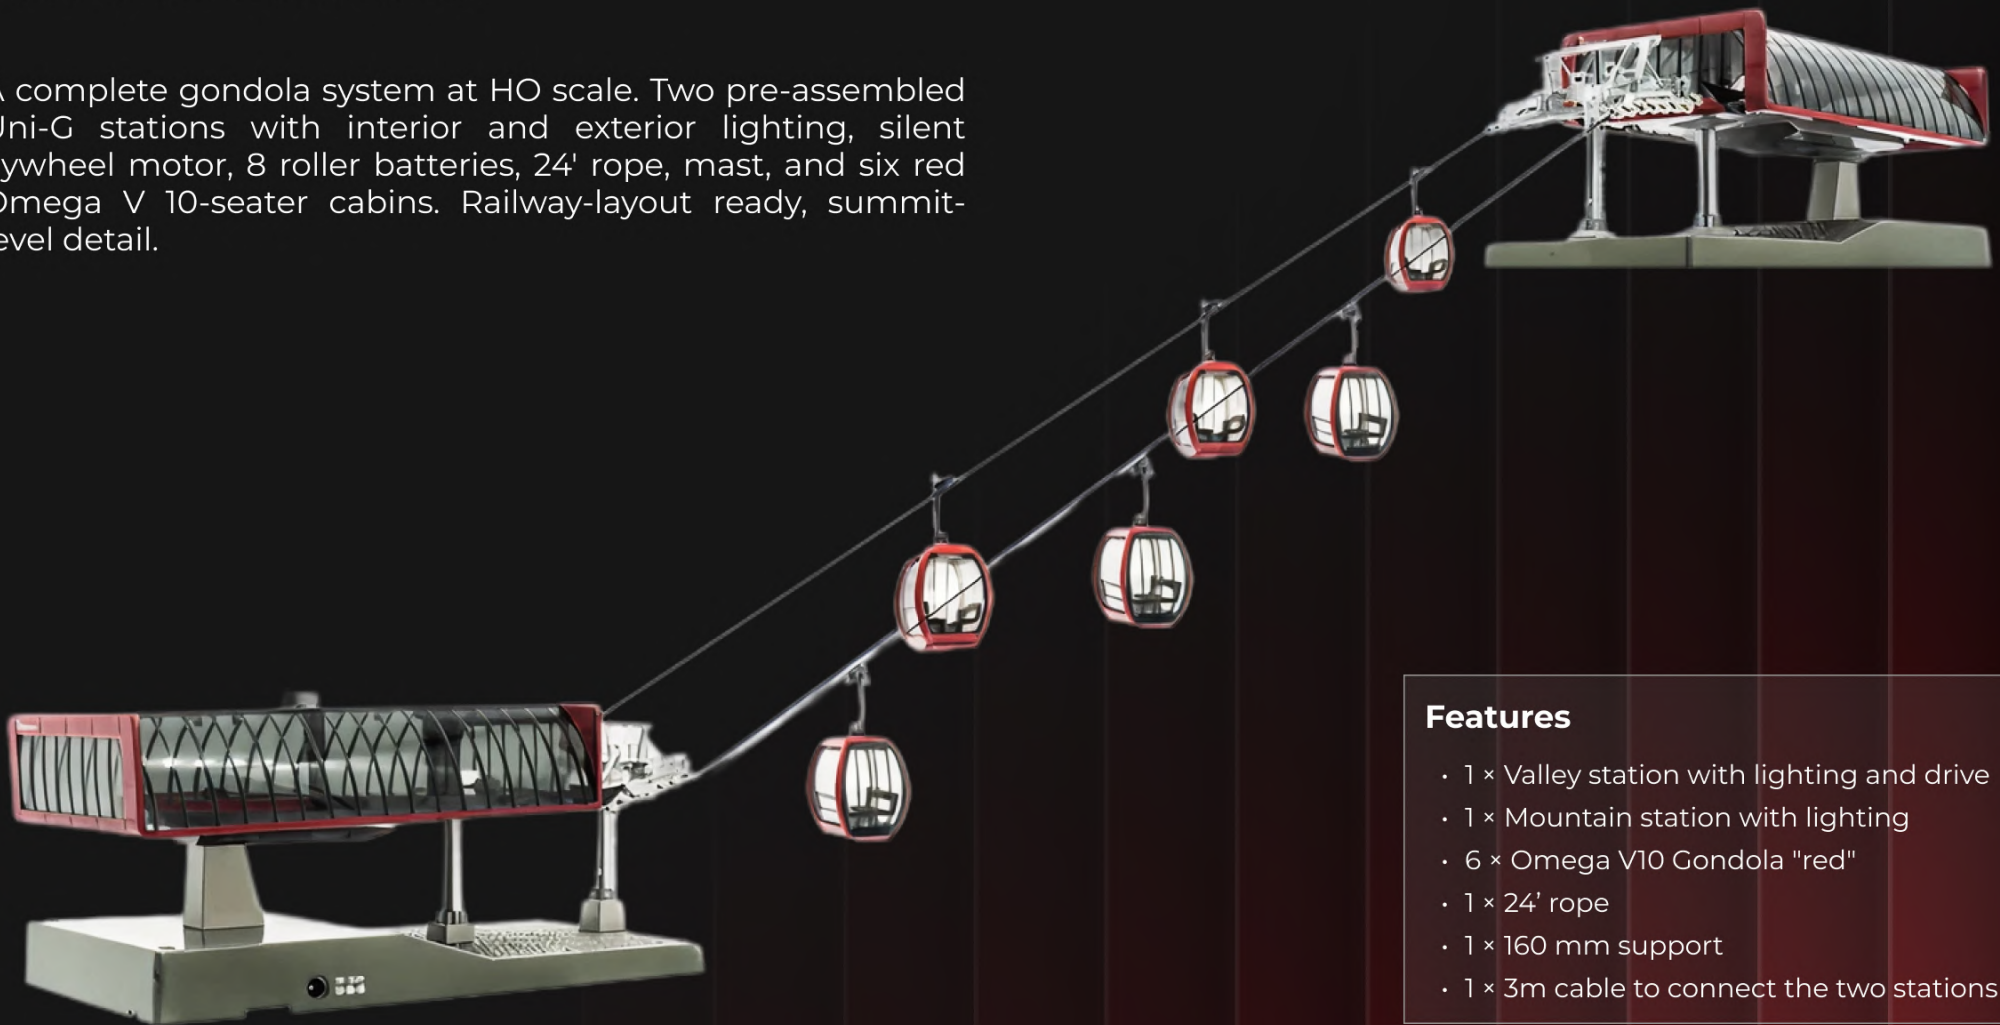

Big mountain energy, compact scale. Jägerndorfer HO gondola systems deliver fully operational cable car action at 1:87 scale, perfect for model railway layouts and tight spaces. Complete sets with stations, gondolas, and rope. Small footprint, massive impact.

JC 82496 | 1:87

HO-Ski Lift 1:87

A complete gondola system at HO scale. Two pre-assembled Uni-G stations with interior and exterior lighting, silent flywheel motor, 8 roller batteries, 24' rope, mast, and six red Omega V 10-seater cabins. Railway-layout ready, summit-level detail.

Features

- 1 × Valley station with lighting and drive
- 1 × Mountain station with lighting
- 6 × Omega V10 Gondola "red"
- 1 × 24' rope
- 1 × 160 mm support
- 1 × 3m cable to connect the two stations
